FOUNDED:	1971, by Stuart Smith
MANAGEMENT:	Stuart A. Smith, Founder, General Partner Charles F. Smith III, Winemaker François Bugué, Associate Winemaker
MOUNTAIN VINEYARDS:	The vineyards sit at elevations between 1,300 and 2,000 feet, on steep slopes which range up to 34%.
PLANTING:	Chardonnay, Riesling, Cabernet Sauvignon were initially planted in 1972. Cabernet Franc and Merlot were added in 1998. Petite Verdot was added in 2007. Pinot Noir was planted in 1972 but grafted over to Chardonnay in 1986.
ESTATE:	All wines made entirely from the winery's estate vineyards surrounding the winery on top of Spring Mountain in the Napa Valley. Stuart Smith chose specific slopes with different exposures for specific varietals when planting the vineyards: eastern exposure for Riesling, southern and western exposures across flat stretches for the Cabernet Sauvignon and the coolest north-facing slopes for the Chardonnay. There are numerous historical sights on the ranch, as well as the huge array of natural beauty and wildlife.
SOIL:	The soils are mostly deep-red Aiken Stoney Clay loam, part of the Aiken, Kidd, Forward complex of soils which are volcanic-based, well-drained and deep for mountain soils. The underlying geology is the Franciscan Assemblage, unique to California coastal ranges, which includes altered mafic volcanic rocks, deep- sea radiolarian cherts, sandstones, limestones, serpentines, shales and high-pressure metamorphic rocks, all of them faulted and mixed in a seemingly chaotic manner as a result of tectonic plate activity. The soils are rocky, with some rocks as large as small cars.
